

EARLE TRACED TO NORWAY BY BAGGAGE

American Artist and Affinity in Jail for Kidnapping His Son.

WILL EXTRADITE HIM
Maximum Sentence in France for Crime Is Year's Imprisonment.

Special Cable Dispatch to The Sun.
PARIS, Jan. 3.—Ferdinand Pinney Earle, the artist, is in jail in Norway with the woman who aided in the abduction of Earle's son by his first wife from a French school at La Motte-Bouvron in November last. The boy is on his way to Paris in charge of the French detective who traced the fugitives. He is expected to arrive here to-morrow.

Earle was traced to Norway by his baggage, which consisted of fourteen pieces. The French detective followed him and the woman to Brussels, Antwerp and Christiania. They were arrested at Lona, a village near the latter city. The woman gave her name as Mrs. Evans. She is believed by Mme. Fischbacher, the boy's mother, to be Miss Charlotte Herman of Hartford, N. J., who was seen often in Earle's company here and who is said to have aided Earle in kidnapping the boy. The arrest was made on December 31 and Earle and his companion were lodged in a Christiania jail.

Extradition proceedings were started ten days ago when definite news of Earle's hiding place reached the French Foreign office. It probably will take from two to six weeks to have the fugitives returned to France for trial. The charge will be frustration of the order of a French court placing the boy in his mother's charge. This is not a felony but a misdemeanor, and the prisoners will therefore be tried by a Judge of the Correctional Court.

It is expected on this account that the sentence may be severe as the Judge is less likely to be influenced by Earle's probable plea that he acted through an impulse of paternal love than a jury would be. The maximum sentence is a year's imprisonment with a fine. The minimum is imprisonment for one month.

Le Petit Parisien says the tracing of Earle by a French official detective was one of the smartest feats of that service. Detective Picard found Harold Earle after a search of twenty-one days, in which he was not assisted by any of the private detective agencies, which had been scouring the continent in the hope of finding the boy and benefiting by the advertisement which would be a result.

The Christiania correspondent of *Le matin* telegraphs that he was permitted to see Earle and his woman companion in jail without the presence of a third party. He says he was struck by Earle's dignified appearance and the seriousness of his language.

"He refused to say a single word about the kidnapping," says the correspondent. "Earle takes his arrest in a matter of fact manner, as a mere incident in his life. Harold is benefited by his stay in Norway, where he indulged in sleighing and skiing. The woman was more loquacious. She said that Harold is devoted to his father and loves him more than ever."

GOMEZ RETURNS TO CUBA.

Notes Crowd Greet Ex-President—Railroads Run Excursions.

Special Cable Dispatch to The Sun.
HAVANA, Jan. 3.—Most of the lower class elements of Havana and some others flocked out to-day to welcome Gen. Jose Miguel Gomez, ex-President of Cuba, back from an eight months tour of Europe with his family.

The crowds were orderly but very noisy. The railroads ran excursion trains from points in the interior. Despite the scandals in the financial administration which were unearthed after Gomez finished his term he apparently has not lost his popularity with the lower classes of Cuba.

TIME EXPERIMENTS NEAR END.

Arlington and Eiffel Tower Scientists Will Now Change Places.

Special Cable Dispatch to The Sun.
PARIS, Jan. 3.—The second stage in the task of determining the exact difference in time between Paris and Washington and the longitudes of these cities has been reached after experiments of three months. In a little more than three months more it is expected that the problem will have been solved.

The experiments at the Eiffel Tower and Arlington, N. C., between which signals have been sent by wireless twice every night for the past three months, with the object of comparing the time so sent with the sidereal time at each of the two stations have been suspended. The scientists who are engaged in the work will now change places, those at Arlington coming to Paris and vice versa.

When the exchange of scientists has been made a further series of experiments lasting three months will be undertaken. After this the most of all the results obtained in the six months will be taken as settling definitely the difference in time and the longitudes of Paris and Washington.

SYLVIA PANKHURST IN AGAIN.

Caught When "Army" Wasn't on Hand—Rides in Grocer's Cart.

Special Cable Dispatch to The Sun.
LONDON, Jan. 3.—Sylvia Pankhurst, the militant suffragette, is back in Holloway jail. The "People's Army," which she raised to prevent her from falling into the hands of the police under the "cat and mouse" act, failed to be on hand at the critical moment and only a few persons saw the arrest of the militant.

Miss Pankhurst's license under which she was released after a hunger strike last month expired on December 22. Since that date she has been in hiding in the homes of friends. She was walking through a dark, deserted street in the eastern suburb Hackney this evening on her way to arrange for a meeting to be held to-morrow in a hall near Covent Garden.

Detectives pounced on Miss Pankhurst, who was accompanied by only one companion. There was a short struggle and the cries of the suffragette leader brought a small crowd of sympathizers to the scene. The detectives commandeered a passing grocer's cart, bundled Sylvia into it and took her to Holloway jail.

NED WAYBURN BRINGS SUIT.

London Didn't Take to "Greatest Producer of the Age."

Special Cable Dispatch to The Sun.
LONDON, Jan. 3.—Ned Wayburn, joint author with Pierre de Courville of "Hullo, Ragtime," who left to-day for Bourne-mout, said he intends to bring suit against M. de Courville and the Hippodrome for violation of his contract and claims a salary of \$100 a week.

Wayburn alleges that his name was omitted from the bills announcing "Hullo, Ragtime" on account of the danger of adverse criticism because of the failure of his "Are You Out There?" Wayburn told a long tale of woe, blaming his collaborator, but it is fair to say that Wayburn insisted on trying to storm London as the greatest producer of the age and London would not stand for that. His experience is regarded as a useful lesson to other Americans.

KING DENOUNCES THE TANGO.

Victor Emmanuel Drops Hint Regarding Dance at Embassies.

Special Cable Dispatch to The Sun.
ROME, Jan. 3.—King Victor Emmanuel, chatting with the French Ambassador at a reception in the Quirinal yesterday, jokingly referred to the tango, which he said was the most widely advertised dance in the world. The King attributed the craze for this dance to the fact that so many attempts have been made to stop it.

King Victor added that in his opinion the tango is essentially an exhibition dance and is therefore unsuitable for court balls, which are usually crowded. It is expected that this royal hint will be sufficient to cause the prohibition of the tango at future balls of the French Embassy, where it was permitted despite the attitude of most of the other diplomats against the dance.

NEW AUSTRIAN ARCHDUCHESS.

Wife of Charles Francis Joseph Gives Birth to Daughter.

Special Cable Dispatch to The Sun.
VIENNA, Jan. 3.—The wife of Archduke Charles Francis Joseph gave birth to a daughter to-day.

The Archduke is a grandnephew of Emperor Francis Joseph. He married Princess Zita of Bourbon in 1911. Their first child, a son, was born in November, 1912.

Archduchess Charles Francis Joseph is one of the twenty children of the late Duke Robert of the Parma Bourbons. Her mother is the youngest and handsomest of the six Braganza girls, whose brother is Dom Miguel, pretender to the throne of Portugal, and one of whose nephews, the Duke de Viseu, married Anita Stewart of New York.

Archduke Charles Francis Joseph is the second in the line of succession to the throne of Austria and Hungary. There is rivalry between the Archduchess and the wife of Archduke Francis Ferdinand, the heir to the throne, for if the latter's morganatic wife is recognized, as is considered likely, her eldest son would be the next heir and the Bourbon Princess would never wear the crowns of Empress and Queen.

POST FOR CARDINAL CASSETTA.

All Those But One Held by Rampoll—In Are Now Filled.

Special Cable Dispatch to The Sun.
ROME, Jan. 3.—Pope Plus appointed Cardinal Cassetta to-day librarian of the Holy Roman Church. All the posts held by the late Cardinal Rampolla except that of Archbishop of St. Peter's are now filled. The name of Cardinal O'Connell of Boston is mentioned for that office.

Cardinal Cassetta was born in 1841. He was appointed a Cardinal priest in 1899 and Cardinal Bishop of Sabina in 1904.

MUTINY IN EGYPTIAN JAIL.

Four Prisoners Killed and Fifty Wounded by Wardens.

Special Cable Dispatch to The Sun.
CAIRO, Jan. 3.—The prisoners of the Taurah jail near here mutinied to-day and the armed wardens fired on them, killing four Egyptians. Of the 1,300 men in the prison seventy-one were wounded, including eighteen wardens. The convicts were being paraded and searched as the result of suspicion that a jail delivery plot was being made on the searchers. Blank cartridges were used at first by the wardens, but eventually blank cartridges were used. After a few volleys the mutineers surrendered.

ESCORTED BY THREE "PILLARS OF FIRE"

Mrs. Alma White Creates Sensation at Euston Station. London.

MANY ON THE LUSITANIA

John E. Berwind Praises New Tariff and Currency Reform.

Special Cable Dispatch to The Sun.
LONDON, Jan. 3.—A curious crowd surrounded the compartment of the boat train for Liverpool to-day occupied by Mrs. Alma White, editor of *Pillars of Fire*, the organ of the Pentecostal Union, the headquarters of which are at Zarephath, N. J.

Three men in blue uniforms and helmets like London policemen, bearing signs on which appeared the words, "Pillars of Fire," escorted Mrs. White to the train. It is understood she is buying land in London for the sect. She left aboard the Lusitania for New York.

John E. Berwind, the American financier, is another passenger aboard the Lusitania. He said:

"The tariff is sure to work out successfully and conditions will improve shortly. There is a little tendency now to a flattening of business, but if we have good crops this will be a good thing, for it does what is needed, namely, expand currency, especially when crops are being moved."

Ivan Caryll, who has been working on a new play at a chateau near Paris, is on his way to New York to confer with Klaw & Erlanger.

M. P. Ritter, the Swiss Minister to Washington, is returning after a vacation of three months in Europe. He said he hopes to interest Americans in the winter sports of Switzerland, such as skating and skiing.

Norton Griffiths is going to the United States in the interest of universal penny postage. He intends to remain there three weeks.

Other passengers are Millward Adams, John W. Arnold, William E. Mandelley, Dr. K. von Maskevich, Secretary of the Austrian Embassy at Washington; Mr. and Mrs. A. G. Spalding, the Comte et Comtesse Stanislas de Castellane, the latter formerly Nathalie Terry of New York; Comtesse de Berthier de Sauvigny, formerly Florence Reed, and her son; Mr. and Mrs. Frank L. Crocker, George S. Doran, Mr. and Mrs. Morris Greenberg, Mr. and Mrs. H. F. Guzenheim, Representative Charles L. Bartlett, Joseph Baldwin, Mr. and Mrs. Louis Duvren and H. Cunliffe-Owen.

COMTESSE DE BANUELOS WEDS.

One Time Financier of Maurice Barthelemy Married at Biarritz.

Special Cable Dispatch to The Sun.
BIARRITZ, Jan. 3.—Ysabel Quinones de Leon, Comtesse de Banuelos, daughter of the Marquis de Alcedo, was married here to-day to a Mr. Christophersen. She was reported last summer to have been engaged to Maurice Barthelemy of New York, and religious differences are said to have prevented their marriage.

The witnesses for the bride were her uncle, the Duc de Plasencia, and the Comte de Suzannet. Those for the bridegroom were Senor Larreta, the Argentine Minister in Paris, and Senor Matias Brerauz.

Capt. Amundsen, the discoverer of the South Pole, was present at the ceremony.

Special Cable Dispatch to The Sun.
LONDON, Jan. 3.—It was announced to-day that the late Baron de Freyne, father of the present Baron, who succeeded to the title while serving as a soldier in the United States army in the Philippines, left unsettled personal property amounting to \$89,215. The real estate brings up the total to between \$500,000 and \$750,000, part of which was bequeathed to the present peer and the rest to his mother. The will directs that the live stock be sold and the proceeds handed over in part to the testator's widow.

Special Cable Dispatch to The Sun.

DENTISTS WOULD BE DOCTORS.

German Students Strike, Objecting to Title "Tooth Physician."

Special Cable Dispatch to The Sun.
BERLIN, Jan. 3.—Dental students in more than a dozen schools in Germany are on strike. They want to be called "doctors" after graduation. The present title given to them is "tooth physicians." The dental departments affected by the strike include those of the universities of Berlin, Leipzig, Halle, Bonn, Heidelberg, Marburg and Greifswald. American dentists hold a large part of the dental practice of Germany, and the students feel that the title "tooth physician" puts them under a handicap which is too great for them to overcome. The Ministry of Education is backed up by the regular physicians and refuses to permit the title of doctor.

Bishop Halling of Paderborn said: "Many ladies nowadays are ignorant of what is meant by respectable clothing."

LONDON TOO COLD FOR COOK.

"Old Doc" Gives Up Lecturing, Says Congress Needs His Presence.

Special Cable Dispatch to The Sun.
LONDON, Jan. 3.—The polar frost of the London audiences which listened to Dr. Cook's lecture on his "discovery" of the north pole is undoubtedly responsible for the termination of his London engagements at the Metropolitan Music Hall.

Dr. Cook announced this evening that his presence was required in Washington, as Congress is about to hear evidence in support of his contention that he really did reach the pole. He is going to Paris and hopes to sail for the United States next week.

His manager, Walter Hasi, has won Lord Howard de Walden's prize at Maxine Elliott's Theatre. He sailed to-day aboard the Cunard liner Lusitania for New York.

BARS UP ON FRENCH GOLD.

Turkey Can't Get Loan and England Too May Suffer.

Special Cable Dispatch to The Sun.
PARIS, Jan. 3.—A despatch from Constantinople says that Djavid Bey, who was charged with negotiating in France for a loan to the Ottoman Government, has delayed his departure for this city, the French Foreign Office having informed Turkey that the moment was not propitious.

The French Government's drastic measures to prevent nations like Turkey from borrowing promises to be followed by still sterner measures. England, for example, which is a heavy borrower of French gold, may find that the Bank of France will raise its rate.

SAY TANGO CAUSES WRINKLES.

French Physicians Also Blame It for Double Chin.

Special Cable Dispatch to The Sun.
PARIS, Jan. 3.—The tango, which while having been barred by the Pope and cer-

tain monarchs and Presidents of republics was adored in France, seems to have received its death blow here.

Physicians are announcing that the tango is the cause of wrinkles, double chin, flabby eyelids and other facial ills which are the terror of women.

Lancastre adds that arms were furnished to the anarchists by Seceola after he had gained their confidence, and that he caused their arrest immediately they entered Portugal.

RUMANIAN KING TO AID JEWS.

Charles Pledges Himself to Better Their Lot in the Kingdom.

LONDON, Jan. 3.—A despatch from Bucharest says that King Charles of Rumania informed the leader of the Jewish movement to-day that he will endeavor to improve the conditions under which Jews now live in his kingdom. The news is regarded as significant in view of the fact that the persecution of Jews in Rumania has given rise to considerable discussion both in Europe and the United States.

Rumania has a population of 7,250,000, of which number 270,000 are Jews. The despatch from Bucharest says that King Charles was greatly influenced by the fact that a great number of Jewish soldiers took part in the Balkan war.

The first step of the Rumanian monarch for the carrying out of his decision will be to reach an agreement with the legislative bodies.
